Antioch Merchants To Meet May 8

A group of Antioch business people met at the Illinois Bell Telephone office in Antioch Tuesday night and held an informal discussion concerning the various retail problems presently facing the village.

The discussion, moderated by Don Hood, manager of the Illinois Bell Telephone Company, attempted to isolate into categories the various problems that will be faced in promoting and stimulating increased business in the Antioch area.

The main topic of conversation concerned the development of a co-operative adver-

tising program for the entire business area of Antioch. A meeting has been called for Wednesday, May 8th, at 7:30 p.m. at the Fire Station. All interested Antioch merchants and business men are invited to attend and an attempt to contact everyone personally is being made.

Other areas of discussion will include the parking situation in Antioch, street lighting and traffic signals, how to retain the customers we now have and how to bring in new ones.

It is hoped that out of these discussions a concrete plan of action and an organized body will be developed. At the May 8th meeting the primary concern will be the formulation of some type of co-operative publicity and advertising program.

Committees will be formed, based on the number of participants, to investigate the other areas which need concern, and the feeling of the group as to whether the formation of a legally organized body is necessary and desirable to accomplish their common goal, i.e., "Promote and Stimulate Increased Business in Antioch."

Mr. Hood has volunteered to act as moderator once again and all merchants and business people are urged to attend May 8th.

Dr. Petty Chairman of Countryside Hospital Fund Drive Campaign

The Countryside Hospital Board of Directors announced at a Monday night meeting that Dr. William C. Petty, Lake County Superintendent of Schools, has accepted the General Chairmanship of the forthcoming fund-raising campaign. Dr. Petty expressed his pleasure with his appointment and stated, "The need for this hospital to serve the Northwest Lake County area is obvious. All of us must join this team and support a united effort to build Countryside."

The General Chairman reports the basic campaign organization planning has commenced. The Countryside Campaign headquarters is located in a new building at 100 Milwaukee Avenue, Lake Villa.

The fund-raising program will play the piano accompaniment during the final scene, playing Grieg's Piano Concerto. Miss Della Tronchuk is the choral director and Joseph Rush is orchestra conductor. Randall McConahey is in charge of lighting. Mrs. Alice Brownlee and Miss Marilyn Miller are the choreographers. Miss Pat Tierney is in charge of make-up.

The cast includes John D. Horton, John Anderson, Judith Turner, Roberta Arndt, Lloyd Pedersen, William Ser-shon and Joan Stephens. Lead dancers are John W. Horton, Violet Hribar and Terry Starman. Students with minor leads are Robert Thomley, Richard Mason, Mark Nelson, Kenneth Shaw, Michael Solar and Harriet Wells.

The play is sponsored by the Fine Arts Dept. of the school. Tickets will be sold at the door.

Dr. W. C. Petty

will seek the funds necessary to build the new hospital which will be located on a 15 acre site at Grand Avenue and Grub Hill Road. Countryside will serve the northwest townships of Antioch, Avon, Grant and Lake Villa.

The fund-raising campaign will kick off approximately July 1, 1963, and continue through the summer months. Further details of the campaign will be announced shortly.

Walaszek announced a fund raising committee will help Dr. Petty in the organization and execution of the campaign. These members are: Mrs. Jane Rundgren, chairman, Antioch, Roy Klaus, Fox Lake, Mrs. Mary Francis Groot, Round Lake Beach, and Mrs. Rosemary Olson Spring Grove. Walaszek will serve as an ex-officio member.

Dr. Petty has been an educator for 44 years. His long tenure as County Superintendent, since 1931, makes him the dean of the Illinois county superintendents of schools. The doctor received a Bachelor of Education from Illinois State Normal University, his Master of Arts degree from the University of Chicago and an honorary Doctor of Humane Letters degree from Lake Forest College.

Dr. and Mrs. Petty reside in Antioch. They have three sons, all married.

"All For One" To Benefit Retarded Children's Society

"All for One," a musical comedy written and produced by home grown talent, will enliven the stage of the Waukegan High School-West Auditorium, 2325 Brookside, Waukegan, Friday, May 3.

The college farce will be presented by the Antioch Pallete, Masque and Lyre Club at 8:30 p.m., as a benefit for the Retarded Children's Educational Society of Lake County.

Music and lyrics were written by M. E. (Mac) Ryan, 156 Oakwood Drive, Antioch. Setting of the play is the campus of mythical Winston College. The story, written by Ryan and other members of the P M & L Club, concerns the efforts of a college fraternity to solve its financial difficulties.

Director is Ken Smouse, who heads the Antioch High School English Department. The 24-member cast includes Bob Odden as Rockefeller P. Jones; Ed Hill as Rex (fraternity president); Jeff Ryan as Golly (college hep cat); Frank Sebasta as Four Eyes (inventor); Ted Radokovic as Ace (law student); Dan Seyfarth as Tiger (football hero); Penny Kovalenko as Candy; Jill Boss as Suzie; Maja Lemke as Zoe; Kathy Behrens as Betty; Marilyn Olson as Ann; Grace Amendola as Shady Lady; Joe Hunley as Dean Saddlebottom and John Ser-shon as Bud the bartender.

Musical accompaniment will be provided by Ryan, playing an organ, with assistance from Joe Kanka, percussion, and George Olisar, trumpet. Selections range from blues and ballads to the latest twist beats.

"All for One" first was presented February 8-9 to packed houses at the Antioch High School. Its success prompted the club to arrange a repeat performance to benefit retarded children. Tickets may be purchased

from Ryan, Robert Flood, executive director of the Retarded Children's Educational Society of Lake County, 555 1/2 S. Genesee St., MA 3-4095, Waukegan, at the Antioch News office, at King's Drug Store in Antioch, from any member of the cast, or at the door. Proceeds will aid the Society's training programs for retarded children and young adults.

These include the Sheltered Workshop at the Genesee Street address for 30 young adults; a class for 15 trainable retarded children 8 through 15 years in Zion, and a program for 15 pre-school retardates which meets in the Waukegan Bible Church.

The Lake County Society is an affiliate of the Illinois Council for Mentally Retarded Children.

L. V. Band Is Honored

The Lake Villa Grade School Band, directed by Thala Rush, entered 57 solo and ensemble events in the Class C State Finals at Ashton, Ill., last Saturday, April 27. Of the 57 events entered, the group won 27 First Divisions; 27 second Divisions and 3 third divisions.

Of the 27 firsts, eight were perfect scores. The perfect scores were received by Lynne Rollin, 8th grade, E flat clarinet; Julie Ekdahl, 8th grade, Flute; Karen Clark, 7th grade, Alto Clarinet; John Prossie, 5th grade, Bass Clarinet; William Brastfield, 8th grade, Tuba; Glen Bocox, 7th grade, Bassoon; Thomas Janka, 6th grade, Bassoon; and the 27-voice Clarinet Choir Ensemble.

The clarinet choir was under the direction of student director Richard Slavik. The 97-piece Senior Band was first division winner with a score of 8-8-9. A score of 10 is the highest possible, and a score of 7 is the lowest given in this division.

Car Hits Deer On Tollway

Mrs. Mabel Weber, Worthy Matron of the O.E.S., and Herbert Pauli, Worthy Patron, had an unpleasant tollway experience when their car struck a deer as they returned from a meeting of Officials of the O. E. S. in Peoria.

The accident happened about 1:20 a.m., when a deer sprung suddenly in front of their car. The deer was killed, and their car too badly damaged to operate. Mrs. Weber and Mr. Pauli were shaken up, but not injured.

Mrs. Weber and Mr. Pauli waited for about one and one-half hours before police arrived. Attempts to flag down passing motorists and have them phone for help were in vain.

When police finally did arrive, the stranded motorists were forced to accept the services of a tollway tow car, rather than Chicago Motor Club help (of which Mr. Pauli is a member) and had to ride to Half Day in the disabled car, dangling from a wrecker.

New Store Opens on Main St.

A new store opens on Antioch's Main St. this week, probably today (Thursday).

In the store formerly occupied by the Tot Shop will be the Antioch Paint and Wallpaper Center. Proprietors are Gerald and Doris Erdman. They have moved their store here from Lake Villa, where they've been in business about a year and a half. These are bigger quarters than they had in the old store, Mr. Erdman says.

The Tot Shop will be in its new location, in the building that formerly housed Arnold's Barber Shop, about June 1. And Arnold's Barber Shop moves to the new Savings & Loan Plaza.

Grade School Band Takes First in State

For the seventh year in a row, the Antioch Grade School Band placed first in the State Band Contest.

The State Band competition was held in Joliet on Saturday, April 27. The band left Antioch at 9:30 a.m., accompanied by 30 band parents.

The annual after-concert banquet was held after the contest. George Olisar, band director, presented band graduation pins to all the 8th graders. The graduating class presented Mr. Olisar with a gift.

The Antioch Grade School Band was again classed as one of the best bands in the contest. Results of the solo and ensemble competition will be announced later.

The Band Parents Association is preparing for the annual fund-raising carnival. The theme this year is Story Book Land. The carnival will be held in the Grade School gym on May 11 from 12 noon to 9 p.m. There will be fun booths, games, guest bands and a spaghetti supper served from 5-7 p.m.

On Tuesday, May 7, the Junior Band will present a concert for the Band Parent Association. The concert is free and open to the public.

Flood Data Still Needed

Harold Meyer, who is working with the U. S. Army Engineers in gathering statements of flood damage in this area, attended the meeting of the Northern Illinois Conservation Club last Wednesday, and asked members to co-operate in letting people know about the statements of damage.

Four persons offered their assistance in gathering the statements: Howard Pamier of Resthaven Subdivision; Al Moore of Fetter's Subdivision; John Delaney of Morley's Subdivision and Adolph Bentel of California Subdivision.

State Representative William J. Murphy, of Petite Lake, recently called a meeting of citizens interested in Flood Control. He also invited Mr. Louis D'Alba, Chief of the Flood Control Section, (continued on page 6)

Wind Rain & Rodents Bug Phones

If your telephone service was interrupted as a result of Monday night's storm, you can blame it on wind, rain and/or hungry squirrels.

Trouble calls started coming in about 4 a.m., says Don Hood, manager of the Antioch Illinois Bell Telephone Co. office. Men were sent out to track down the trouble and make repairs. By 5:30 a.m. 17 men had been dispatched to work on them.

Windblown branches, says Mr. Hood, cause some of the trouble. Also squirrels, gnawing on the cables. Either can cause hairline cracks in the coating of the cable. Then the wind-blown rain is driven into the cracks, causing a short. And bingo—no phone.

Most of the service in the Antioch area had been restored by noon. Ninety customers were involved in the breakdown of service.

Pattin's Score In Lake Forest Tourney

Madeline and Pat Pattin were really scattering the pins last Saturday night, when they moved into second place at the Lake Forest Bowling tournament.

A squad of Antioch bowlers competed in the tournament last Saturday night. If the Pattins stay in second place, it will net them a prize of \$750.00.

Hire Two For Police Force

Fred Elam, 239 Bridge-wood, Antioch, and Hargold G. Mason, 546 Maplewood, Antioch, have been hired as members of the Antioch police force.

Eleven men took the examinations for the positions. The jobs were awarded to the highest-scoring applicants whose homes were in the village.

Mr. Elam is patrolling during the day and checking meters. Mr. Mason will be on night hours most of the time.

Both men were hired with a six-month probationary period.

The addition of the two men to the force raises the total of the Antioch police force to five—Police Chief Walter Scott, Stephen Rzyzko, Emil Ehnert, Mr. Elam and Mr. Mason.

A Heritage of Debt

It's traditional to hope your children will lead a better life than you did. A better education, a better job, a higher standard of living—most of us spend most of our adult years working to give these benefits to our children.

Grandparents are likely to be even more concerned for the welfare of beloved descendants. Nothing is too good for them. Most will willingly deprive themselves to bring pleasure to the young people, to insure a good future for them.

Do you know a parent or a grandparent who would sign a note by which he would receive a few extra dollars now and agree that his child would pay back double the amount? Can you imagine a parent or grandparent seeking easy, comfortable living, knowing his child will have to pay for it with long hours of toil, laboring under a mountain of debt, the mere contemplation of which leads to hopeless despair?

Yet that is the heritage the people of this generation will leave to their children, and, to all appearances, to their children's children.

For every dollar your child collects from Social Security (if he collects any) he will pay in \$1.60. This is only a small portion of the heritage of debt we leave our children.

The national debt climbs steadily. We pay more just for the interest on it. The government is pushing a medical aid program. If it becomes a reality, your child will pay throughout his working life for the benefits you, and many others will receive.

It won't be only the luxuries he'll have to sacrifice to pay your debts. For many, it will mean going without, a poor education, perhaps, losing a family business because the drain of taxes is too great.

Piling up a personal fortune, or building a sound business for your child to inherit, is no longer even a precarious guarantee that he will lead a good life. From year to year, as the government looks for new sources of revenue, it becomes more and more impossible to build up personal security.

In our search for more and more security for ourselves, for increased government benefits to insure us freedom from want, we have mortgaged the future of our children. In the name of giving them a better life, we burden them with hopeless debt. We've done a poor job of safeguarding the freedoms and opportunities our parents, and the generations before, handed down to us.

Only by refusing to approve any more government programs which promise security with one hand and take it away with the other can we reverse the trend. Let's quit trying to find government-insured security at the expense of unborn generations.

Do You Want Flood Control?

Army engineers and members of the Flood Control committee have been working hard in this area for some time to prepare a plan for flood control. Now, with the major portion of their work done, it looks as though the whole plan may fall through because of the indifference of the people who have suffered from the flooding.

Army engineers must have individual reports of damage from the people who suffered the loss. Unless they can present reports of sufficient damage from flooding to Congress, the U.S. Government will not approve an investment to control the flooding.

Response in most areas has been good. In the Antioch area, and the many subdivisions surrounding it, the response has been practically nil. The Army Engineers surveying the area say they have seen evidence of the flooding, but have so far been unable to stir people to the action of making out the reports.

There was a lot of public interest a couple of years ago, when flood damage was heavy. This has been a dry year, and people just don't seem to be interested.

Another spring of floods will probably bring another flurry of activity and "wanting something done about it." It'll be too late, then. If you want something done about flood control, better get hold of a flood damage report, fill it out and mail it in. And try to get your neighbors to do the same.

with ANNIE MAE

In case that eminent colleague of mine, Mr. Harry H. Stern, would like to know "what's cooking?" It happens to be this gail. My feminine aids and I will grant that we may be the weaker sex, but Mr. Stern's constant reference to our lack of intelligence has brought us to the boiling point. What Mr. Stern made you think we gals wouldn't know when Arbor Day is?

THE LATEST REPORT: Isn't it fun watching all the birds building those treasured nests in the spring? The busiest bird I've seen is Mr. Stark, who will pay a summer visit to Mr. and Mrs. Jim Krieger, Mr. and Mrs. Bill Vos, and Mr. and Mrs. Ronnie Vos, while Mr. and Mrs. Wm. Bailey have already received a pink bundle of joy from that feathered delivery wagon. . . . We have our own version of the Valiant Men, in the form of Dick Ericksen and Ray Jensen who are trying to salvage some sort of business men's organization out of several attempts at group co-operation in our business district.

The story that caps them all this week is the way the P. D. came up with a topper for the ex-serviceman who just joined the department. (It's an old, F. D. hat and they had it stretched) the bloomiest thing this Spring is the yard in front of the Antioch Clinic, one has a hard time determining whether they are cultivating lawn, or dandelions. . . . that proverbial cut-up gal from the L.G.A., Beverly Roberts, had the tables turned on her this last week, when she underwent surgery at Victory Memorial Hospital.

FORGET-YOU-NOT: The recognition ball for the benefit of Mental Health at the Rink Ballroom this Sat. Nite. "Song of Norway" at A.T.H.S. by the Fine Arts Dept. . . . and that ought to keep you busy!

THE LAST DROP: What a pleasant surprise the Jaycees (they are still around, aren't they?) will have for the summer vacationers when they find a nice brown Xmas tree in the information center. . . . following my regular routine of bringing you all the firsts I can, this week we bring you the first man to take a dip in the Aqua Center this year. Courthouse Notebook

BY LOU BURKIN

There may be little significance attached to it, but did you notice that Max Wildman, Lake Bluff attorney and one of the also-rans in the 1962 Congressional primary, grabbed a share of the spotlight at the Judge Decker dinner last week by escorting ex-Cong. Marguerite Church to the head table?

Wildman, who has been steadily adding to the surprising strength he showed in his first political outing, is having a hard time matching the public exposure of Cong. Robert McClary, but he is missing few opportunities to keep his name current among the voters.

A willing speaker for any GOP group in the 12th Congressional District, Wildman recently joined the speaker's Bureau of the Illinois Republican Women's organization as a volunteer speaker anywhere in the state on GOP policy.

Cong. McClary, of course, is not unaware of Wildman's activities and is taking advantage of the news value of his position to mend his political fences in Lake County where he has been somewhat weak in recent years.

This could be quite a battle a year from now.

Probate Clerk Hugo Schneider was elected parliamentarian of the state association of county officials at the recent convention in Springfield which is not a bad first step towards advertising his availability for a state post a few years hence. The Probate Clerk's office as an elective post will almost certainly be eliminated as a result of the judicial reform so the former County Treasurer, a proven vote-getter in Lake County, may be setting his sights somewhat higher.

The Probate Clerk's post is somewhat less confining for Schneider than was the treasurer's job so he will have time to do a little state-wide opinion testing.

Although it is given little chance of survival in the present legislative session, a bill has been introduced that would eliminate five county offices from the ballot, making them appointive, career posts.

Listed as expendable are the sheriff, treasurer, auditor, recorder and the coroner, who would be eliminated entirely in favor of a medical examiner.

Such a bill will undoubtedly find favor with the supervisors since it would enhance their prestige in the political arena and give them appointive powers over these important county offices.

Such a situation would also wipe out what remains of the Republican Party in Illinois, since the GOP strength in Illinois is based on down-state courthouses.

A model of the new county building has been on public display and there have been handsome brochures printed showing the new building in some detail, but we have seen nothing on the auxiliary county building that is supposed to go up in Libertyville.

The mid-county building was promised as part of a resolution authorizing transfer of the present courthouse to the Lake County Building Commission, the group charged with erecting the new courthouse, but there is every indication that this promise was just a sop to west county opponents of the new building.

SIDELIGHTS from SPRINGFIELD

By Sen. PAUL SIMON

CONSTITUTIONAL CHANGES WILL BE FEW—IF ANY

To change the constitution of our state requires a vote of approval by the people, and a two-thirds vote by the legislature—and as of this writing it does not appear probable that any major change will be on the ballot.

There may be one or two amendments of a somewhat minor nature, but a major amendment to the revenue article—which is the most talked-about change—will not take place unless there is a sudden shift of thinking in Springfield.

It is possible some minor changes in the revenue article will be approved by the legislature, but even this does not seem likely.

The change which appears to have the best chance to get on the ballot is one to permit sheriffs and treasurers to succeed themselves. There are proposals in both the House and Senate on this, the Senate version permitting counties to establish a civil service system for the employees in these two offices.

Some proposed changes which are not "major" to state government, but would provide some relief to various taxpayer groups include: a proposal to take the sales tax off of food; and a proposal to exempt property tax for those over 65 years of age, up to \$5,000.

One of the more drastic constitutional changes proposed—one which I could not support—calls for the denial of the right to vote to anyone receiving public assistance.

One of the best proposals is one which has the least chance of passage: a move to reduce the number of legislators in each house.

The present large number

turn to the clerk sufficient funds to operate the office and would retain the excess fees.

This would put a substantial dent in the county income and could have considerable bearing on the "front" that could be charged the Circuit Clerk by the Building Commission.

The state would then re-

of legislators in each house does not give the people better representation, but worse. When the numbers become so large—177 in the House, for example—that genuine debate is rare, then a change is desirable. But it is impossible to achieve.

Recently I heard Senator H. Mac Downing of Macomb give a moving speech as I have heard since I have been in the legislature. One of the reasons I was moved by this Senate speech as I never was by a House speech probably is that during the four terms in the House there were so many members and so much confusion that it was difficult to get into the spirit of debate in the same way you can in the Senate, with its smaller numbers.

But the move for fewer members realistically has no chance of passage, for legislators would be voting themselves out of office—and that isn't likely to happen!

An amendment which has an outside chance of passage is one for an appointive state superintendent of public instruction. Both the Kerner administration and the School Problems Commission have presented such proposals.

The amendment which the governor is most interested in is for a new revenue article, one that would permit greater flexibility in establishing tax laws in the state. Everyone agrees that it should be done—but there is too much disagreement as to how to do it.

A move for a constitutional convention, to redraft the whole state constitution, has absolutely no chance, desirable as it may be.

Changes in the state constitution will come slowly.

Do you know how easy it is to take a corner with a Corvair or park one? Turn this newspaper sideways and it will give you a pretty good idea. The wheel handles just about that easily.

The Corvair's engine is in the rear, for not only greater traction, but more balanced weight distribution. And that's what makes the steering so completely effortless.

The engine is air cooled, too. No radiator. No water or antifreeze. No boiling over or freezing up to worry about. It takes the weather and the terrain as it comes.

Your Governor Reports

Groundbreaking ceremonies will be held Saturday for construction of the \$30 million Shelbyville dam and reservoir with completion of the vital project expected to come in five years.

The state-federal project is aimed directly at flood control. The completion of the Shelbyville project and its sister reservoir—Carlyle, some 115 miles downstream—will provide control of a flood larger than the largest ever recorded in the Kaskaskia River Valley.

The annual average flood loss in the valley from crop and property damage alone now exceeds \$1,750,000.

The Shelbyville dam and reservoir also hold magnificent promise to the economy of the area. The dam will impound a lake which will have a water surface of about 12,000 acres and a shoreline of about 113 miles. The lake will reach through Shelby, Moultrie and Coles Counties.

The shoreline will be ideal for homes, lodges and campsites. Sufficient boat docks and fine public beaches will make the area an ideal vacation setting.

The project is vital to the industrial growth of the area and also of major significance is its importance to conservation, fish and wildlife preservation and pollution abatement.

Specifically, the reservoir will be created by a rolled earth impounding dam, with concrete spillway and flood gates to be constructed across the river immediately north of Shelbyville. The dam will be more than one-half mile in length and have a height of approximately 104 feet from the bed of the river.

The planned development of the Kaskaskia River Valley, as you can see from the Shelbyville project alone, is one of the most exciting endeavors ever to take place in Illinois.

Also involved is a reservoir at Carlyle and the canalization of the lower 55 miles of the river.

To the man who can't work in air-conditioned comfort

(but would like to come home to it)

You can have Whole-House Electric Air Conditioning in the average 6-room home for as little as 50¢ a day.

(This includes maintenance as well as operating costs.)

It's bad enough to have to work all day in hot, sticky weather. But it is even worse to come home to a house that's too hot and humid for sleeping.

Nowadays there's something you can do about it. It's called Whole-House Electric Air Conditioning, and the cost is a lot lower than most people guess.

Public Service Company

ELECTRICITY IS SIMPLICITY

For instance, to have it installed in the average 6-room home usually costs from about \$800 to \$900.

Operating costs will vary, but 50¢ a day for operation and maintenance over a period of 120 days is close to the average.

Electric air conditioning is simple, doesn't require water. It adds to the desirability and market value of your home. You get a lot besides cooling. Air throughout the house is crisp, free of excess humidity. A filter in the system removes dust, and up to 98% of the pollen, from the air.

To find out exactly what Whole-House Electric Air Conditioning would cost in your home, get in touch with the dealer, distributor, or department store nearest you. The contractor you choose will be glad to give you a free estimate and financing is easy to arrange.

RUMMAGE SALE

Have you ever tried to figure out what a rolling pin with ridges on it can be used for? This was one of the humorous problems facing Mrs. Lawrence Yopp as chairman of the Girl Scout Troop 210's rummage sale. The sale will be held in the Grass Lake School basement on Saturday, May 4, from 9 to 5. The money raised from the sale will be used for Troop 201's camping trips this summer.

Seeing all those new cars on the highways makes you realize you have to give the American people an enormous amount of credit.—Arcola (Ill.) Record-Herald

The public is invited. Mr. and Mrs. Clarence Hauser and daughter, Dorcen of Paris Corners spent Monday afternoon at the home of Mr. and Mrs. Frank Hauser.

Since it takes time and distance in which to stop, a motorist always should maintain a safe distance between his car and the one ahead. During a spring rainstorm a motorist not keeping this safe distance may find it impossible to match a sudden stop made by the driver ahead.

STUDENTS LEARN CONSERVATION

The students of Channel Lake School are learning conservation by doing. Last Wednesday, with the help of officers of the Northern Illinois Conservation Club, they planted pines at Oak Point State Park. The Channel Lake Girl Scouts will also plant evergreen shrubbery near the new gym.

The Conservation Club is taking Girl and Boy Scout troops on a trip to Kettle Moraine Forest next weekend.

Dress-Down Day at ATHS

One day a year is dress-down day at Antioch High School and last Friday was it. In case you're unfamiliar with the phrase, it's the opposite of dress-up day. For this day, the kids dress in just about anything that suits their fancy, so long as it's within the realms of good taste.

We went down and took a few pictures, corraling students (with the help of Mr. Palley) as they rushed to their next class. The kids looked like they were having a ball. We wished we could have taken pictures of more of them, but you can get an idea of the informal attire donned for this day from the pictures.

"WELL, YOU KNOW HOW IT IS, FOLKS. Dad just paid his income tax, and we're scraping the bottom of the barrel." Myrna Masak, Charlene Sherwood, Bill Pratt, Vinco Casella and Rich Fawles, with David DeYoung in the background.

RENAISSANCE IN RAILROADING

Historians will mark 1962 as the beginning of a new renaissance in railroading, and the railroad industry is on the threshold of a bright new future of service to the American people.

This, predicts Daniel P. Loomis, president of the Association of American Railroads. He bases his opinion on the federal government's recognition and acknowledgment of its own primary responsibility not only for railroad difficulties but also for much of the transportation mess. He cited President Kennedy's recent transportation message to Congress as an outstanding example of the increased understanding the year has brought—an understanding, he feels, which is shared by the general public.

Mr. Loomis also touches on some of the other good signs. Progress is being made, despite determined union opposition, to eliminate feather-bedding practices which result from totally obsolete work rules. Numbers of court decisions have legally supported railroad efforts to compete more effectively with other carriers. Congress and the Administration show sympathy toward soundly conceived mergers.

On top of this, some automatic technological advancements have become possibilities. One, for instance, is fully automatic train operation, "without human hands at the controls."

Let us all hope that Mr. Loomis' optimism proves to be fully justified, and that the road blocks that still exist will be eliminated with a minimum of delay. We must have railroads. And, more than that, we need a taxpayer, driving private enterprise railroad industry capable of providing the ultimate in service at the minimum in cost.

Spring rains can cause windshields to become splattered with mud and water, impairing visibility and driving efficiency, cautions the Chicago Motor Club. A spring auto checkup should therefore include an inspection of your car's wiper blades to make sure they are in top condition.

"MAKE IT QUICK, PLEASE. We've got a date to try out for the Beverly Hillbillies." Howard Bors, Roy Gundlach, John Larson, Ellen Huchner and Wilnetta Monnier.

"READ any good books lately?" Linda Lasco, a walking library.

Flood Data.

(Continued from Page One)

U. S. Army Engineers to attend. Mr. D'Alba stated at this meeting that Congress will act only if it is shown that damages from flooding are sufficiently high to warrant an investment in flood control by the U. S. Government in the Fox River Basin. Mr. D'Alba reported that it is up to each community to gather data on flood damages and requested reports of every known case of damage and loss. This information, he said, has been sought for the past two years with indifferent response from the people. There are three corrective courses to prevent flooding, D'Alba said.

1.—A system of levees and seawalls.

2.—Widening and deepening channel and river capacity.

3.—A system of dams and reservoirs upstream in Wisconsin to impound flood waters for later release.

D'Alba said he considered levees or seawalls too costly. He preferred widening and deepening the channels and rivers and the use of dams and reservoirs.

At the conclusion of the meeting, Rep. Murphy appointed a committee to gather this flood damage data much needed by the Army Engineers to complete their survey of the Fox River Basin. This committee has

printed a simple "Statement of Loss" Form and are in the vast process of distributing and gathering these forms throughout the entire Fox River and Chain O' Lakes area. The earnest cooperation is urged by Rep. Murphy and the Committee, of all Subdivision Associations, Organizations and Citizens to The Langford (S.D.) Eagle.

It says, "Here is a family that wants to do its share in keeping our country strong—wants to help give it the means and the power to speak for and work for the Free World."

It also says, "Here is a family that saves to provide for its future. Here is a family that contributes to the strength of its country by keeping itself strong and independent."

Join up with the tens of millions of American families and individuals who are showing the communist part of the world how they are helping to keep their country and the Free World strong.

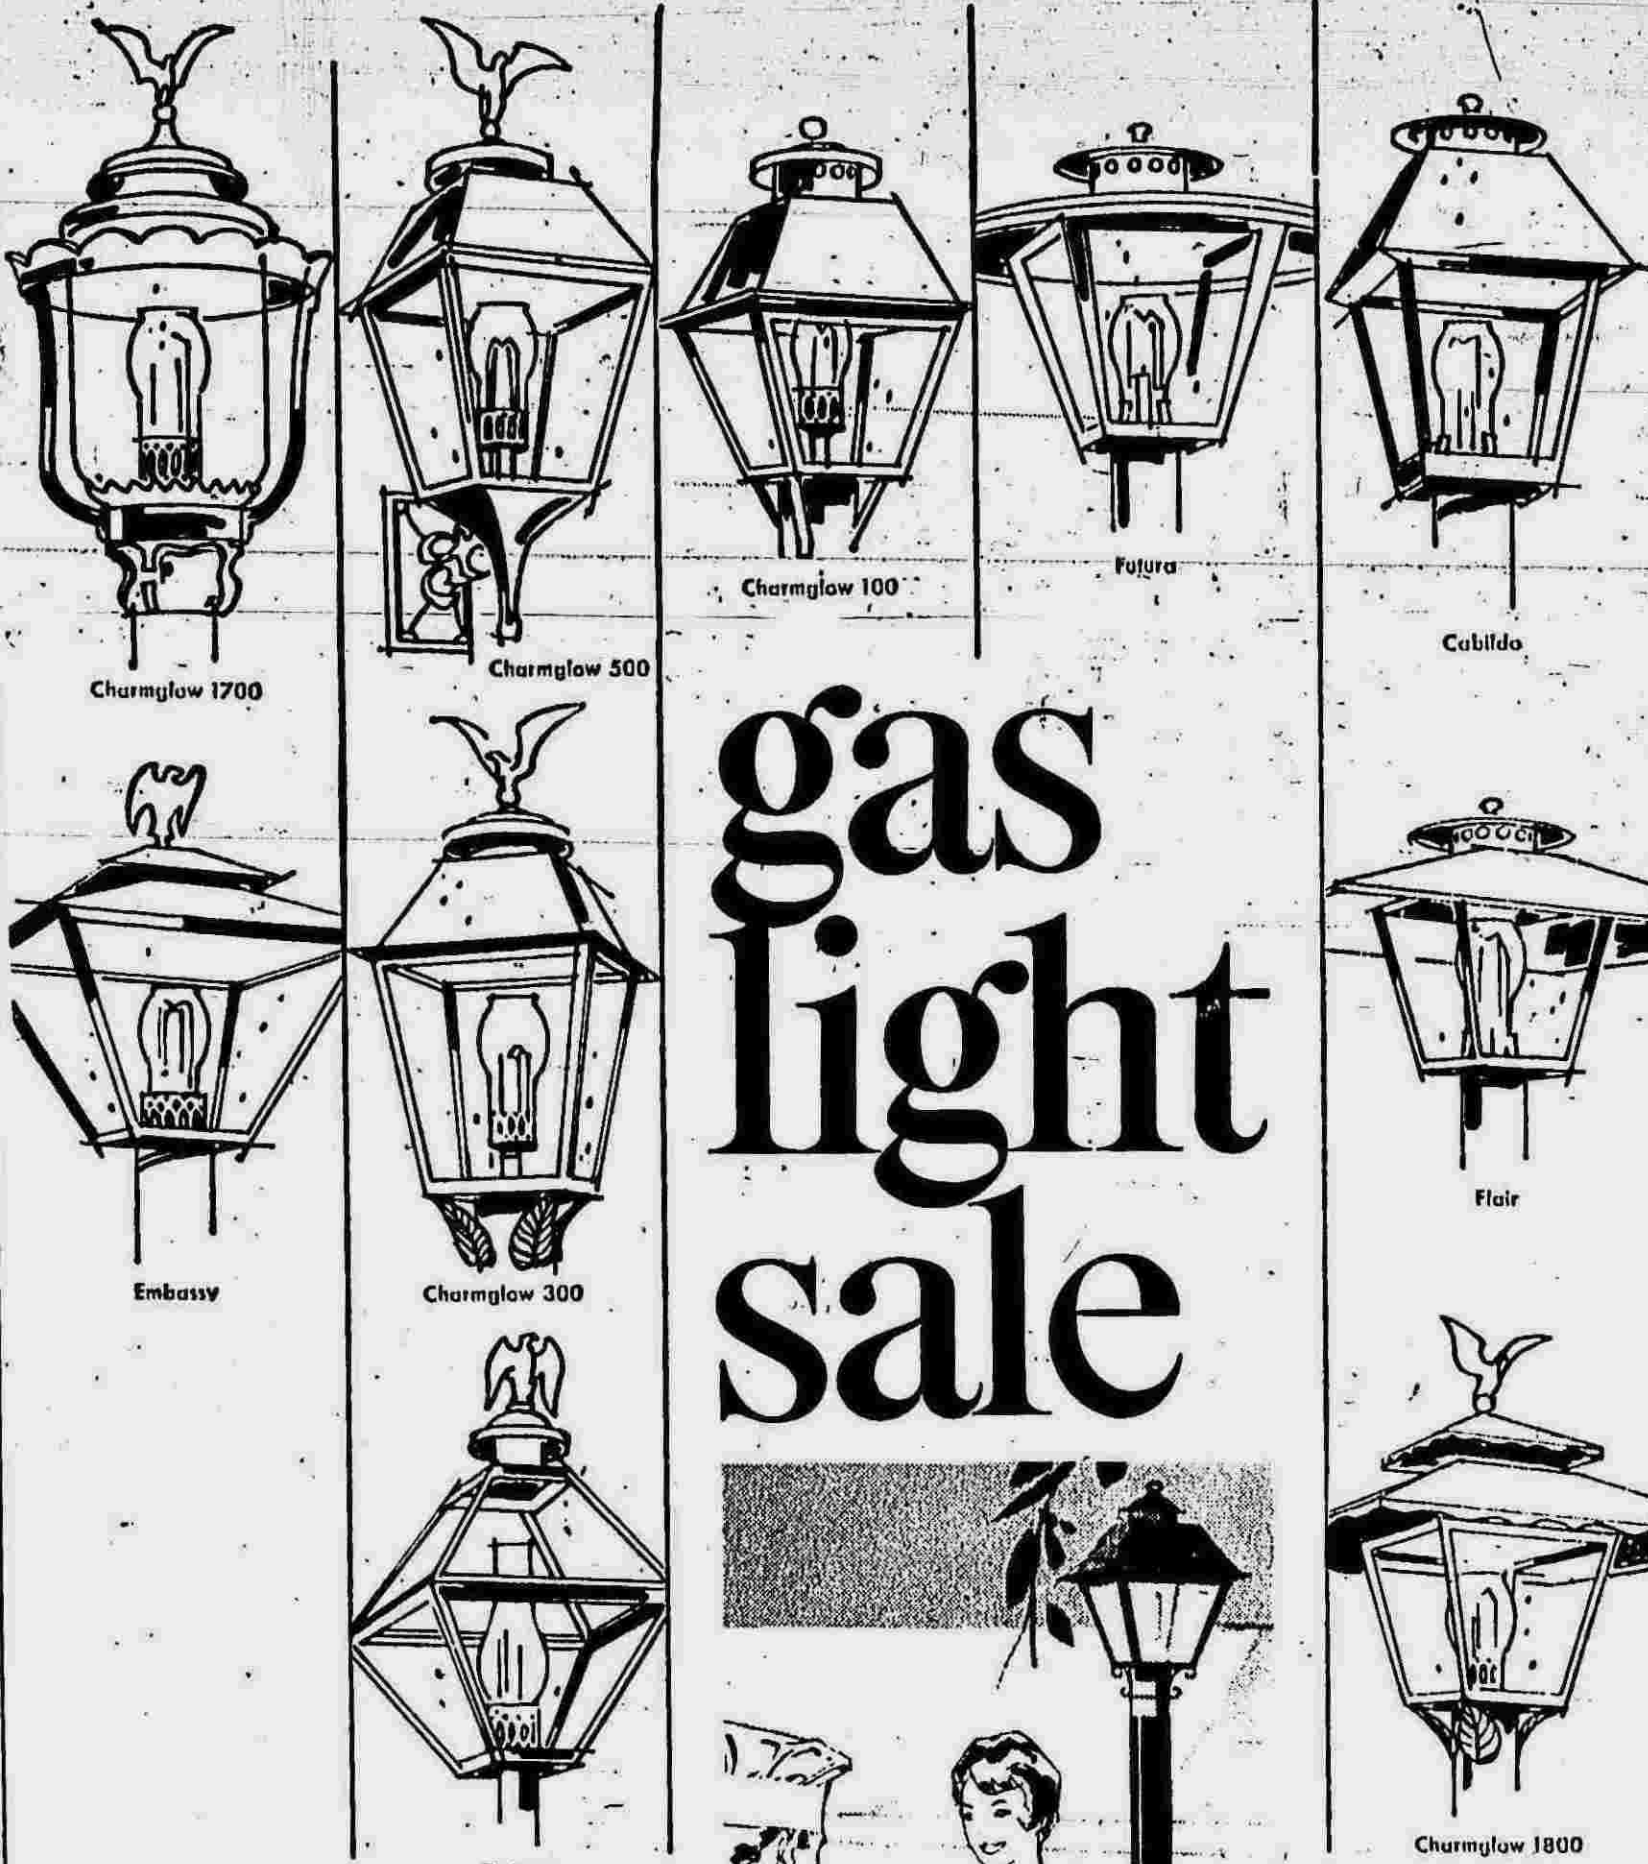

It's easy. Just sign up for Payroll Savings at work, or for a monthly Bond at your bank.

Inside Antioch High

By Marilyn Gras

The spring sports outlook is getting brighter and brighter at Antioch this season. Last week the AHS track team came in fourth of 24 schools at Palatine. The mile relay team captured a first place award. The boys on this winning team are Tom Tantlinger, Ray Peterson, Rick Fowles, and Dione Rathbone.

The baseball team got its first win of the year over Round Lake in the second game of a doubleheader last Saturday. Star player for Antioch was pitcher Jim Wojcynski who pitched a one-hitter. The final score was Antioch-2, Round Lake-0.

The golf team is in first place in the conference now. Last Friday, for their fourth win against one loss, they defeated Grayslake by the score of 51-41.

With springtime, too, comes election time. Last week the 1963-64 Student Council was elected, and the Color Guard members were chosen. Tuesday of this week the Prom Court and the student replacements for village officials were selected.

New Student Council members are:

Jerry Berke—President
John Bonner—Vice-Pres.
Sue Polley—Secretary
Lon Ipsen—Treasurer
Mike Stenzel—Sophomore Class President
Bruce Dalgaard—Junior Class President
Jeff Gates—Senior Class President.

In addition to these members each class chose four representatives to the Council. The Sophomore representatives are Linda Ripley, Melonie Jensen, Jim Sorensen, and Dave Chandler. Junior representatives are Rose Frank, Coral Hribar, Julie Nissen, Jim Wojcynski and John D. Horton.

Barb Casella, Linda Palinski, Sandy Pedersen, and Pat Freels were selected for the GAA Color Guard. They will remain on it until they graduate.

Tomorrow is the annual Eighth Grade Day. High school students will attend classes during the morning. In the afternoon prospective Freshmen will come to the high school for an informative program and a tour of the school.

SPRING: TIME FOR BLOOMING HEALTH

Men of any age begin to stir forth at the coming of spring, like bears coming out of hibernation. Golf clubs get dusted, fishing tackle repaired, tennis rackets restrung, camping equipment checked.

And then there's the work to be done around the house: take down storm windows, put up screens, repair and paint, garden and landscape.

Spring is a pretty strenuous time of year. If you are one of those men who stayed close to the fireside during the past winter months, the Lake County Heart Council cautions you to swing into Spring gently—like a lamb instead of a lion.

And this is a good time to get a complete physical examination, the Lake County Heart Council says. At this point most men say: "But there's nothing wrong with me." When that statement is confirmed by your physician, the reassurance—to you and your family—is priceless. If something is wrong, the early warning is invaluable; may even save your life, as a matter of fact.

Lakeview Girl Scout Council will conduct six Day Camps in June for Brownies, Intermediates and Senior Girl Scouts. Registration is being held in neighborhood troops from May 1 through May 15. No registrations will be accepted at camp.

Scouts from the Antioch, Lake Villa and Lindenhurst areas will be attending the Chain O' Lakes State Park on June 17, 18, 19, 20 and 21, 22, 23, 24, 25, 26, 27. Mrs. W. J. Watt of Antioch is the Day Camp Director. The theme this year will be Indian.

Other camps, their themes and directors are: Adler Park, Libertyville, Gypsy, Mrs. John Ames; Chain O' Lakes State Park, Alaskan, Mrs. Charles Carter; Dunes Park at Illinois Beach State Park, Indian, Mrs. Fred Jelovsek and Mrs. Roy Stried; Foss Park, North Chicago, Frontier, Daze, Mrs. Ernest Cooker; and Fox River Park at Wilmet, Our State, Mrs. Donald Carter.

Adult Scouts are now attending out-door training sessions at Camp Morrison, where many are preparing themselves to serve as Day Camp staff members.

CUB PACK 92

Cub Pack 92 held its meeting on April 2 at the Antioch Grade School Gym. Announcements of forthcoming events were made, among them the Cub-O-Rama to be held May 11, at the Lake County Fair Grounds from 2 to 8 p.m.

When a Cub Scout comes to your door, buy a ticket and attend this worthwhile program.

The Rummage Sale was announced for April 26 and 27. This event is now over and the Committee and Pack 92 wish to thank everyone who helped make the event a success.

On April 17, a Lad and Dad cookout and hike was held. A few fathers were muscle sore for work the next day.

Awards were presented as follows:

ities consider that an annual check-up is "Recommendation No. 1" for the man who wants to lessen the risk of heart attacks. Physical examinations once a year are helpful in spotting early changes—for which preventive and curative measures may be instituted.

Even after you've been given a clean bill of health from your doctor, don't throw yourself into energetic amusements or home repairs until you've first conditioned yourself by less strenuous activity for a while. Walking and doing some of the easier gardening chores might be a good way to work up to the more strenuous jobs, the Lake County Heart Council says. Discipline your muscles gradually, taking on heavier jobs, little by little. This sort of preparation is easier on your muscles—including your heart muscle—and will also help to avoid accidents that sometimes occur because conditioning and coordination are rusty.

Trying to REDUCE? ALMOST ALWAYS HUNGRY?

NOW YOU CAN LOSE WEIGHT WITHOUT GNAWING 'Hunger Pangs'

"Hunger pangs" can take the joy out of life and the will out of power, and make sticking to a reducing diet an agony of discomfort.

But now, with TECKTROL Tablets, you can lose weight without that familiar "half starved" feeling. There is nothing mysterious about how TECKTROL Tablets work. They contain a number of scientifically selected natural harmless substances which, when taken with water, swell to many times their size in your stomach, they will help to take away your craving for food yet are without significant nutritive quality, containing only about 1 1/2 calories per tablet.

REACH FOR A TECKTROL

Take one-half hour before meals TECKTROL will make it easier for you to satisfy your appetite with less food than you ordinarily would eat. They will not interfere with your digestion, and you will thoroughly enjoy your meals. If "between-meal snacks" are your problem—reach for a TECKTROL instead. You suffer "hunger pangs" only when your stomach is empty. Several TECKTROL Tablets, with plenty of water, will give you blessed relief.

HELP YOURSELF "STICK TO IT"

Whatever your system of reducing may be—or if you merely want to maintain your present weight—give your will power a hand. Let TECKTROL help you to stick to it.

Sequoit Track Team Breaks School Record

The Antioch High School track squad has had a busy and successful week since last Wednesday. They topped Elva-Vernon 64 to 54 in a dual meet last Thursday, placed fourth in a field of

24 schools at the Palatine relays and came home Monday to trounce Grant High School in a dual meet 84 to 34.

Tom Tantlinger, Ray Peterson, Rick Fowles, and Diane Rathbone took top honors for the local boys in finishing first in the mile relay at Palatine. The boys ran it in a time of 3:34.7 for a new school record.

Antioch finished with a total of 23 points behind DeKalb, McHenry and Woodstock at the Palatine relays.

Other point winners at the relays were Jim Edwards and Dave White. Edwards cleared the high jump in 5'8" and White went over the pole vault bar in 11'. Both finished in fourth place in the meet.

Tom Morgan, Ray Peterson, Rich Fitch and Don Richter took third in the 880 yard relay. Their time of 1:36.8 tied the Antioch high school record.

The Frosh-Soph 440 yard relay team placed 4th in their event and broke the existing Antioch record with a time of 47.4 seconds.

The Sequoit thin elads blanked Elva-Vernon in 4 events and took seven firsts to edge the Bears 64 to 54. Diane Rathbone broke the school record in the 440 with a time of 53.3 seconds (continued on page 10)

BIG SHOTS ARE ONLY LITTLE SHOTS WHO KEPT SHOOTING.

Our Leader, Dick Waters took a group of golf scouts from Grass Lake Troop No. 201 to the Spring Grove fish hatchery Saturday to introduce them to some of the miracles of nature. They were in luck; they saw wall-eyes hatching out from eggs which Bruce Muench had obtained and properly prepared (fertilized). There were zillions of 'em and barely visible to the naked eyeball. Mrs. Alice Johnson, their leader, came along and I think she had more fun than the girls.

(In the old country they do it differently. Chief. They catch 'em young, take away their shoes and tell 'em nothing.)

Work is an old-fashioned way of making a living. It's high time we were shown a better way.

FISHING REPORT — The bass are hitting at Little Silver Lake, east of town on Depot street. Two and three pounders are being caught there. Little Silver (no relation to Big John Silver) is a dandy lake and is made to order for the contemplative art. It's small enough to be free from heavy wave action (safe) on windy days and easy to find the spots; big enough to have a good fish population. LEAVE SOME FOR ME!

Ernie De Labio and Daddio John Hemm have been taking picks on the stripers, mornings and evenings (don't these guys ever work?) at the Wilmet dam, on streamer flies. They get 'em at Sorenson's Bait & Bull Shop, so ask for 'em.

Ed Bentley and a buddy from Chicago caught three nice bass and a northern pike in Grass Lake Monday, out of Ed Smith's place. What are you waiting for? Go get 'em.

FAMOUS DAFFYNITIONS — Admiration—Polite recognition of another guy's resemblance to ourselves.

Eddie Zanta (remember the name, girls), the sage of Indian Point came up with this one: Why is an elephant

gray? So you can tell him apart from a butterfly. Who threw that last piece of garbage first?

Practical politics consists of ignoring facts. Arnold Marenmont, fake note.

In case you don't see "Fingers" Chinn around, he isn't. He's taking off for the "wide open spaces" in Texas. The vine-grape has it's gonna take the "long cut" south from Springfield, Mo., thru the fabled fishing country in the Ozarks. What a dirty trick to play on a poor unsuspecting wife who is anxious to get to see her "maw."

A fanatic is a guy who redoubles his efforts when he has forgotten his aim.

I spent two days with our fisheries biologist Bruce Muench, in the act of comprehensively surveying the Chain of Lakes. One of the projects is to investigate the number of fish hanging around a certain area, their kind, how big they are and how old. This is done by shocking them with electricity. Then they come to the surface; we catch them in hand handled nets, place them in a tank (in the specialty rigged boat) and after a certain area is covered, they are individually weighed, measured and then returned to the water, none the worse for their experience. In the case of the northern pike and the white bass, a few scales were removed for microscopic study in the laboratory. Water chemistry tests are also made, like for instance temperature at the surface of the lake and at a depth of two feet, oxygen content, turbidity and a few others. At one point, a gill net with five different mesh sizes was set out at night and its catch recorded and released in the morning. This is to get an idea of the movement of these fishes. The survey started in Pistakee Lake and proceeded through Nippersink, Fox, Petite, Marie, Channel and Grass Lakes. Channel Lake has the clearest water and it gets progressively murkier as it flows southward.

All of this will be repeated several times during the fishing season, to get a full check on the movements of the fish, where they go and how well they do. I thought it would be lots of fun when I volunteered to help and it was. It also involved hard work which was immensely rewarding. Champion carp was twelve inches long and weighed 1 1/2 pounds and came out of Charlie Haling's channel. Incidentally, they and the stripers have already begun to spawn in some areas. There were quite a few 4, 5 and 6 pound black bass. The northern are doing pretty good too, but best of all was the carp, George

THESE ANTIOCH TRACKSTERS won fourth place at the Palatine Relays last week, competing against 23 other high schools. Left to right seated: Diane Rathbone, Rick Fowles, Ray Peterson, and Tom Tantlinger. All members of the mile relay squad that finished 1st in their event at the meet. L to R, standing: Tom Morgan, Chuck Weber, Rich Fitch, Don Richter, Jim Edwards, Dave White and Mark Nelson.

Bowlers Wrap Up '62 Season

League bowling season has ended for most of the teams. The Sunday evening teams still have a couple of weeks to go, due to the interference of the Antioch Singles tournament in their schedule.

Major League

The Major league held its banquet at Joe & Helen's on Saturday night, April 20, and Joe & Helen's team finished in first place.

"The Pinspotters"

The Pinspotters league held its banquet at Joe & Helen's on Thursday night, April 25. Volo Bait Shop took the first place trophy for the second year in a row.

High team series and game both went to the Leo Fox Trucking team, with a 2,461 series and an 858 game.

High individual series and game went to Curly Wertz of the Volo team, with 632 and 257. Curly also received the Lake County Women's Bowling Assoc. pin for her high game.

The most improved bowler was Vi Denny with a 12-pin raise in average.

Judy Bishop picked up the almost impossible 4-7-10 rail during league play, for which she received an arm patch.

Pins for perfect attendance for two years in a row went to Vi Denny, Audrey Keulman and Emily Kozak.

A trophy for the team that held up the bottom, Lorenz's Country House, was donated by Dave Nissen.

High game pins went to Curly Wertz for her 257, Merry Keulman for a 230, Louise Fernandez 230, Mary Tracy 224, Jerry Tolva 222 and Ethel Carter 222.

Thursday Business Men

The Thursday Business Men's League ended with Erick's Auto Repair in first place.

Tavern League

The Antioch Bowl took first place in the Tavern League. G. Wagner had both high game and high series with a 279 and a 656.

In the Thursday night Bi-State league, Rudolph's Turkey Farm took first place. High team series went to Charlie's Channel Inn (2958) and high game game to El-Marrs with a 1039. Pete Lehmann had high individual series, a 710, and Rich Jacobsen high game of 284.

The season ended with Chuck Waters carrying the highest average, 184, Ted Ozga next with 182, Ed Slavik 181, and

De Bray, to the contrary, notwithstanding. Plenty of 'em were too big to weigh (some over 30 pounds) and they were all over the place. We also checked for the newly hatched fry of the northern pike and the minute insect life which they feed upon. Verrry interesting.

Take Charge of the Lights!

Larry Dowar 173. The Most Improved Bowler was Richard Erickson, raising his average 20 pins. The Bi-State League banquet will be at Charlie's Channel Inn on May 9.

Sequoit Nine Wins First

Antioch's baseball fortunes took a turn for the better over the weekend as the Sequoits won their first game of the season. After losing to Wauconda Thursday, the Antioch nine split a doubleheader with Round Lake Saturday at Round Lake.

In the contest Thursday, Jim Brownlee gave up 5 runs and 6 hits while striking out 7 batters. Cliff Babbey of Round Lake took credit for the win.

In the first game of the double bill Saturday Norbert Wolter pitched a good game

giving up only 5 hits but was still credited with the loss as the Sequoits lost 4 to 3. Wolter also hit a homerun to aid his own cause but the luckless Sequoits failed to capitalize on their 7 hits, as they left 8 men stranded on base.

It was a different story in the second game as the Sequoits got a well pitched game from Jim Wojczynski, shutting out the Panthers 2 to 0. Wojczynski pitched 6 innings before giving up the only hit of the game for (continued on page 10)

COOKING AFLOAT ON SMALL CRAFT

By Hank Bowman

(Courtesy Sequoit Harbor)

Camp style eating aboard a small runabout or a utility boat can be just as much fun and the food every bit as good as on a luxury cruiser.

A galley box that can be easily stowed under the foredeck or used as an auxiliary seat in the cockpit will substitute for the cruiser's galley. The galley box should include one frying pan and several saucapans, preferably stainless steel or enameled ware. Most marine dealers carry nesting kits that pack compactly. A combination can and bottle opener, large mixing spoon, slotted spoon, large fork, spatula and hunting knife, copper scouring sponge, liquid detergent, plus a waterproof match container will take care of equipment requirements other than a stove.

Your stove may vary from a single canned-heat affair to an elaborate three-burner portable. A two-burner alcohol stove is a good bet and its fuel takes up little storage space. Charcoal grills will also fill the bill.

You better not plan to cook ashore. Camp fires are prohibited in many areas and even where permitted you may not be lucky enough to locate a supply of dry fuel.

Carry paper towels (they can double as napkins, plates and cups to minimize after-meal cleanup. Don't cut the budget on these. Buy top quality paper dishes with hard plastic coating so hot foods and liquids won't make them soggy and give food a limp cardboard taste. Carry a supply of heavy Kraft paper bags for garbage. Antioch News Mixed Doubles Tourney Soon

The tournament bowling season is in full swing around the country with the end of league bowling. And the ANTIOCH NEWS Mixed Doubles tournament, coming up at the Antioch Bowl, will give local bowlers a chance to win some honor and glory—and money.

The tournament will start May 11 (Saturday) and end June 16 (Sunday). The Antioch Bowl will be closed for one week of that time (from midnight June 12) while the alleys are re-finished.

Except for the time the alleys are closed for refinishing, tournament bowlers may compete any day, including weekends. The tournament is limited to Lake County bowlers, or bowlers who bowl in leagues at the Antioch Bowl.

Contestants will bowl 3 games on the same pair of lanes. Bowlers may enter as many times as they like, and cash once with each partner. A first prize of \$150.00 is guaranteed, based on an estimated entry of 200. If there are more entries, larger prizes will be given and the prize list extended. Trophies will be given for first, second and third places, with all trophies being donated by the ANTIOCH NEWS.

Enter early and often. There will be six weekends to compete, and openings any day during the week. High scores in the tournament will be published weekly in the Antioch News and pictures of high-scoring bowlers.

refrigerate cold drinks, but fruit juices, but it won't be suitable for salad greens. For crisp food, replace lettuce with celery or carrot sticks which regain crispness when soaked in cool water. To extend the effective cooling period, periodically soak a piece of canvas and drape it protectively over the chest. Evaporation of water will cool the exterior and slow down loss of cold from the inside.

Eggs are hard to store. I

suggest breaking them. Pack them in a plastic jar. This will limit you to scrambled eggs, but it's better than having them scrambled in the bottom of the cooler box.

Rediscover canned goods, but be sure to mark contents of cans with a waterproof grease crayon as dampness aboard a boat may remove the labels. Don't overlook items like instant coffee, tea, powdered milk, cream and potatoes. Carry fresh water in polyethylene bottles or insulated jugs.

BY GEORGE DIAMOND

Get out of the rough, neighbors, and play golf where the going is smooth and easy.

If you have to wait hours to play golf on a weekend, and then get caught in a traffic jam on a crowded course, you'll do yourself a favor by applying for membership in the private George Diamond Country Club in Antioch.

Our course can't crowd up because we are limiting the country club to 150 members. When you take a look at our beautiful championship golf course, our club house and our locker rooms, you'll likely say: "Sure it's great, but you have to be a millionaire to afford it."

I'm happy to report that this is not true. You will merely be enjoying a millionaire's privileges at a membership fee that a junior executive can manage.

Call 395-9999 for details! Or better yet, drive out and see for yourself what a golfer's paradise exists on those scenic acres at Route 59 and Grass Lake Road in Antioch.

The private George Diamond Country Club is just next door to the George Diamond Charcoal Broiled Steak House that is open to the public all the year around. Ask to look around the clubhouse and the golf course the next time you stop for a mouth-watering charcoal broiled steak dinner in our fine restaurant that serves the same No. 1 quality food that has won coast-to-coast fame on S. Wabash in Chicago and in Palm Springs, California.

Of course, golf is the big attraction at the George Diamond Country Club. But while you are on the course your family can be having fun in our outdoor Hollywood pool or relaxing in lounge chairs on the sun deck surrounding the swimming pool. The more ambitious members of your family can be playing tennis, or badminton, or they can be practicing on our golf driving range.

We cater to the youngsters of all ages. There is a wading pool for the very young. A life guard is on duty at all times to watch the children, and grownups, too, in the pool. We have a separate locker room for the children and a separate dining room if you prefer to have them eat with the other youngsters.

Members can dine in the private club house dining room or in the public George Diamond Charcoal Broiled Steak House. The same low prices prevail in both places.

Watch for next week's column where Mr. Diamond, president of the private George Diamond Country Club and the public George Diamond Charcoal Broiled Steak Houses, will tell you more about the other facilities that are new or nearing completion on the 300 Diamond Acres at Route 59 and Grass Lake Road.

Speedway Opens Season on Saturday

Waukegan—The first date of racing at the Waukegan Speedway has been set for Saturday night, May 4. The speedway will be a beehive of activity for most of the day, as modified sportsmen and late model cars begin inspections and warm-up runs at 12 noon, and continue throughout the afternoon until 7 p.m. Time trials for the triple program of racing will then begin, with races scheduled to go at 8:30 p.m. Headlining the sportsmen drivers will be last season's Waukegan Speedway champion and the overall champion for sportsmen stock cars on the entire circuit, Dennis Burgan, of Zion, Ill. Headlining the modified trucks will be Bob Karry of Waukegan and Lindenhurst. Karry placed second last season in modified racing, and has always been a stiff competitor, although he has yet to win the track championship. Don Miller and Bob Dugan of Waukegan will be among the top drivers in the late model division. All totaled, some 100 cars are expected to be on hand Saturday. The same program is scheduled for the following Saturday night, May 11th.

TABLERITE CHUCK STEAK

Chuck Steak is less tender than most steaks but flavorful and economical. Chuck Steak may be broiled but should be tenderized first for complete satisfaction. These are a few methods to choose from:

1. By application of meat tenderizer liquid (follow directions) or tenderizing salt.
2. Marinating in wine, vinegar or tomato juice (acid breaks down tissue).
3. Pounding with meat mallet, or running through cubing machine.
4. Grinding: Salisbury steak, hamburger, ground beef, etc.

Broil or pan broil like other steaks. Serve as you desire.
